SELF-PACED ONLINE PROGRAM TERMS OF PURCHASE & DIGITAL USE POLICY

2026–2027 Academic Year

Welcome

Thank you for enrolling in the Lūminé Academy Self-Paced Online Program.

Our goal is to provide students with a carefully designed learning experience that combines thoughtful instruction, engaging literature, meaningful writing, and joyful discovery. We hope this course serves your family well and helps students become confident, independent readers, writers, and thinkers.

This document explains the terms governing access to the Self-Paced Online Program and the appropriate use of its digital resources.

Course Access

Enrollment in the Self-Paced Online Program provides access to the online course through **June 30, 2027**.

Course access includes downloadable Student Editions, instructional videos, and other course materials released according to the official Lūminé Academy Academic Calendar.

Families who enroll after the academic year has begun receive access to all lessons released earlier in the year and then continue with the regular lesson-release schedule. Enrollment later in the year does not extend the course-access period; access ends on June 30 for all families. Families who would like additional time may purchase a Summer Access Pass, which extends course access through July 31.

Required Course Materials

Every student should have access to the materials required for successful participation in the course.

Student Editions

A.S.K. Language Arts includes **four Student Editions—one for each academic quarter of the school year.** These books contain course readings, graphic organizers, writing activities, and assignments students complete throughout the course. Downloadable PDF versions of the Student Editions, found through the student portal, are included with your subscription to the Self-Paced Online Program.

Students should have a practical method for completing the written activities found throughout the Student Editions. This may be accomplished by:

- Purchasing professionally printed Student Editions;

- Downloading and printing the Student Editions provided through the student portal; or
- Completing the downloadable Student Editions digitally on a tablet (or similar device) using a stylus.

Whenever practical, Lūminé Academy encourages students to complete written work by hand rather than typing. Handwriting supports careful thinking, stronger memory, and the development of written communication skills, all of which are important goals of the curriculum.

Writing Utensils

Students need to have a means of writing in the following colors: red, green, purple, orange, blue, and either black or gray. Options include colored pencils, pens, or a stylus.

Required Literature

Twelve works of children's literature are used throughout the school year. Families will need to obtain eleven required books. For *The Tortoise and the Hare*, families may use an online version or purchase the recommended edition; therefore, purchase of a twelfth book is optional.

The required literature is not included with the subscription and must be obtained separately by each family.

The current literature list and information about obtaining the books are available on the course page of the Academy website. Families are encouraged to obtain all required books before the school year begins so students are prepared for the lessons and assignments.

Lesson Release Schedule

Lessons are intentionally released throughout the school year rather than all at once.

This pacing encourages consistent progress and allows families following either the Self-Paced Online Program or the Live Cohort pathway to remain aligned with the Academy calendar.

Lūminé Academy reserves the right to make reasonable adjustments to the lesson release schedule when necessary.

Parents may consult the published Lūminé Academy Academic Calendar for the current release schedule.

Summer Access Pass

Families wishing to continue reviewing course materials after June 30 may purchase an additional **one-month Summer Access Pass** for **$150**.

Unless extended through the Summer Access Pass, course access expires on June 30 of the applicable academic year.

Individual Student Enrollment

Each enrolled student is expected to maintain an individual **Lūminé Student Portal account**.

Individual enrollment allows Lūminé Academy to provide accurate:

- Course progress tracking
- Assignment records

While families may occasionally choose to watch instructional videos together, each enrolled student is expected to maintain an individual enrollment and Student Portal account so that academic records accurately reflect each learner's work.

Families enrolling more than one student receive the published sibling discount.

Parents are responsible for ensuring that login credentials remain secure.

Permitted Use

Enrollment grants a limited, non-transferable license for educational use within the enrolling household.

Families may:

- Stream instructional videos.
- Download resources specifically provided for download.
- Print permitted instructional materials for personal educational use.
- Access course materials during the active enrollment period.

Enrollment does not transfer ownership of any Academy materials.

Copyright & Intellectual Property

All videos, curriculum, lesson materials, downloads, graphics, illustrations, animations, assessments, documents, and other digital resources remain the intellectual property of LUMINE PRESS LLC unless otherwise stated.

Without prior written permission, families may not:

- Share login credentials outside the enrolled household.
- Upload videos to other websites or platforms.
- Redistribute downloads.
- Copy substantial portions of course materials.
- Sell, license, or republish Academy resources.

- Use Academy materials to create competing educational products.

Technical Requirements

Students should have access to:

- Reliable high-speed Internet
- A desktop or laptop computer
- A current web browser
- A PDF reader for downloadable resources

Although many resources function on tablets, a desktop or laptop computer is recommended for the best learning experience.

Refund Policy

Because digital access begins immediately upon enrollment, refund policies are governed by the Tuition, Enrollment & ESA Guide.

Families are encouraged to review the course description, enrollment information, and technology requirements before purchasing.

Payment Plans

Self-Paced Online Program

Families may choose one of the following payment options:

Pay in Full (Best Value)

$800 (20% discount)

Save $200 by paying in full at the time of enrollment.

OR

Four Automatic Monthly Payments

4 monthly payments of $250

Four equal monthly payments of $250 will be charged automatically to the payment method on file.

Students enrolled through a payment plan acknowledge that continued course access depends upon maintaining the account in good financial standing. If an installment payment fails, course access may be temporarily suspended until payment has been successfully processed. Once the account returns to good standing, access will be restored automatically.

Course Access

Enrollment includes access to the course through **June 30, 2027**.

Families wishing to continue reviewing course materials after June 30 may purchase an additional **one-month Summer Access Pass** for **$150**.

ESA Funding

Families using approved Education Savings Account (ESA) funding programs will follow the Academy's ESA enrollment workflow.

Course access becomes active once required funding has been approved and received.

Privacy

Lūminé Academy takes the privacy of students and families seriously and handles student information with care. Progress data collected through the Lūminé Student Portal is used solely to support student learning and Academy administration.

Course Updates

Lūminé Academy may occasionally update videos, downloads, lesson materials, or technical features in order to improve the learning experience.

Such updates do not constitute a change in the purchased course.

Limitation of Liability

The Academy shall not be responsible for interruptions caused by Internet outages, third-party hosting providers, payment processors, software platforms, or other circumstances beyond its reasonable control.

Reasonable efforts will be made to restore access as quickly as practical.

Questions

Questions regarding enrollment, billing, course access, or technical issues are always welcome.
